SUMMARY

With 8+ years across startups and scale-ups, I specialize in the React ecosystem, TypeScript, and design systems that ship. I care deeply about performance budgets, accessibility, and the craft of micro-interactions.

When I'm not in the codebase, I'm mentoring engineers, writing about frontend architecture, and occasionally speaking at local meetups.

EXPERIENCE

Senior Frontend Engineer · Nova Labs

2022 — Present

Remote

Leading the frontend guild for a fintech platform serving 2M+ users.

- Architected a component library adopted by 6 product teams, cutting UI delivery time by 40%.
- Reduced initial bundle size by 58% through route-level code splitting and dependency auditing.
- Introduced end-to-end testing with Playwright, raising release confidence across 20+ services.

Frontend Engineer · Stackline
